Statement of intent

At Princess May Primary School, we aim to develop close relationships with parents, so we can work collaboratively to support the educational progress and wellbeing of our pupils.

We know that parents' interest and involvement in their child's learning is associated with securing positive outcomes and higher achievement for their child. We believe parents are a key influence in their child's life and that education is a collaborative enterprise involving parents, school and pupils. Strong partnerships with parents are pivotal to our school life, and we are committed to establishing and maintaining an effective and purposeful working relationship between home and school.

For the purpose of this policy, "parent" refers to parents, guardians, carers and any other family adults involved in a child's direct care, education and development.

This policy provides a clear framework for how our school communicates with parents, including the ways in which parents can ensure they are fully involved in every aspect of the school community.

Why parent and carer engagement is important

"Parental engagement in 'supporting learning in the home' is the single most important changeable factor in student achievement." (*Dr Janet Goodall, Warwick University, 2012*). National research demonstrates that children do better at school and achieve more in life when parents and schools work together. Only 15% of a child's life is spent in school and so it is clear that parents have the most influential role in a child's education. It is important to recognise that each of us has a role to play and by working together with parents we aim to ensure that every child does the best they can at school and beyond.
