Dear parents and carers,

Data allowances on mobile devices

I am pleased to inform you the government has announced that they will provide support to disadvantaged children who use their mobile phone to access remote learning. This will allow the school to request mobile data increases for children who:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

Children with access to a mobile phone on one of the following networks might be able to benefit: Three, Smarty, Virgin Mobile, EE, Tesco Mobile, Sky Mobile. The phones of parents may also be eligible, as most children will not have their own phone. Other providers may hopefully join the scheme at a later stage.

Given the criteria outlined above, if you feel that you would qualify for this assistance please complete the following form:

<https://tinyurl.com/yyrmpnjf>

The school will collect the information you provide on the form and liaise directly with the DFE and government for this assistance to be put in place.

Yours sincerely,

Kevin Reynolds
Headteacher
